THE LATE NEWS.

MINNEAPOLIS, Minn., July 21.—[Special.]—The representative second National encampment of the Grand Army was ushered here today. Yesterday passed with 10,000 strangers within the gates of Minneapolis, all of whom were sheltered and fed in a satisfactory manner. Up to 2 o'clock this morning trains were arriving with hundreds of additional guests, and expectation had reached fever heat. The welcome already and it has since continued. The entertainment of today's arrivals is placed in doubt. The streets are crowded to their utmost capacity, and it is almost impossible to make headway even with strong arms. The fine open lots, which sparkling fresh and green except last evening, afternoon and giving their proper beauty. All the various State headquarters remain busy getting settled in the neighborhood, and are numerous now regarding the accommodations of visiting comrades. The Post Minneapolis boast not to Lyndale in the morning, while there were various other entertainments in other quarters, all of which are treated in detail below.

The hotels are packed to suffocation, and the same pursuit is a scene of bustle and activity. The fair has been delightfully cool—one of those days which have made Minneapolis as popular as a summer resort. There was a tremendous influence on the part of the strangers to get up a welcome yesterday into the town, but the genial home method is approved, and Minneapolis put its shoulder to the wheel again.

[illegible]

At the services last night the Minneapolis & St. Louis brought 1,700 people and the Omaha brought 600, and there were probably over 2,000 arrivals at the Southern depot alone. 17 cars also arrived on the Minneapolis & St. Louis there with about 30 from the Red Regard Valley, and the 10 Hastings train from Minneapolis, making 30 specials of the G. A. R. arrived at the Southern depot in addition to the regular trains. The Omaha had about 10 cars over the Omaha, but there were only 2 on the C. & N. W. special coming here. At the Milwaukee depot two trains arrived last night, one of which was crowded with visitors. The Milwaukee arrived last night about 10 o'clock, and was met by a St. Paul and Minneapolis band and escorted to the hotels. This morning about 7 o'clock the men were in a carriage and escorted to the post and from noon to the conclusion of their stay, when guard to a during the encampment, about 2 o'clock the train in the West Hotel, and about 9:30 and was the last for the day generally, at 10:30 the regular train on the Hastings & Dakota brought in five more coaches, containing parties to Minnesota and Dakota. On the C. & N. W. the regular trains are coming in and arriving every minute, and carrying thousands loads of people.

THE PROHIBITIONISTS

[illegible]

Washington, D. C., July 21.—[Special Telegram to The Tribune.] The Prohibitionist National Committee met at the Ebbitt House this morning, and the business of the committee, the preparation of the platform, the nomination of candidates, the amount of money to be contributed in favor of prohibition to politics, occupied the time of all those who were present. The committee adjourned to meet in New York in connection with the arrangements for the convention next month. This morning the Prohibitionists from Connecticut, New Jersey, Maine, Virginia, and other points had arrived, and at 10 o'clock the New York delegation, all of whom were excited to the last and afterwards confirmed in their supposition, arrived. So far the following delegates have arrived:

[SPECIAL CABLE TO THE TRIBUNE.]

SAN FRANCISCO, July 21.—[Special.]—A London Standard says: Advices from Yokohama, Japan, tonight, convey the intelligence of a frightful steamship collision off that coast this afternoon. The Empress is severely and completely damaged by the collision, and is now lying in a sinking condition. The steamer is in collision with the Kiyo, of the Yamashiroto Line, and the Saxham, an English steamer plying from this city along the Spanish and Mediterranean coasts. The Kiyo was steaming out and the Saxham was coming in at the time the accident occurred. There was a serious misunderstanding of the signals displayed, and the vessels came together in a fair case of speed. The engine was broken, and both steamers were badly damaged, although the collision was not considered very serious. Efforts to remove were made by boats from the Kiyo shortly after the collision occurred, but the heavy sea running at the time rendered the work impossible. Many of the passengers on board the Empress were panic-stricken, and, in their endeavors to escape from the vessel, jumped overboard and were drowned. The Empress was bound from Hong Kong to Yokohama, and had on board a large number of passengers, besides a crew of 200 men. The Saxham was bound from Hong Kong to Kobe, and had a crew of 100 men. The number of passengers on board is not known, but it will probably exceed 200.

THE CAMPAIGN

[illegible]

There seems to be a general desire on the part of Republicans to get the campaign machinery in Cook County in shape as soon as possible after the election. There is a substantial agreement that it is not wise to begin the campaigning even efforts to enthusiasm, but when the time does arrive, there is a general desire to have the party organization created as soon as possible and the whole strength brought to bear against the enemy. For this reason the action of the County Central Committee in getting ready for the campaign is regarded by many as premature. It is claimed that while the Democrats have a strong local organization in Cook County that the Republicans are able to win this fall, it is argued that the party cannot afford to take the risk of any organization being allowed to go by default. The Republicans have a strong local organization in Cook County that the Democrats

S. S. Rivers, proprietor of the St. Charles Hotel, New Orleans, is at the Grand Pacific.

IN GENERAL.

Mayor Harrison said yesterday that he should not sign the ordinance requiring employers on municipal works to furnish employés, but allow it to become a law.

S. A. Webb, a postal clerk between Chicago and Cincinnati, fell dead in the car at Urbana yesterday. The train at Champaign, where he formed a family, but was well known in Chicago, having been in the service for years on that railroad.

The temperature yesterday, as observed by Barnum, optician (Tribune Building), was as follows: 7 a. m., 72° above zero; 7 p. m., 77°; 9 p. m., 76°; 11 p. m., 68°; 1 a. m., 67°; 3 a. m., 67°; 5 a. m., 67°. Barometer, 7 a. m., 30.06.

C. H. Baker, whose name was mentioned as one of the leading agents in organizing the Northern Central Relief Union, writes to the Evening Mail, the last evening in the week, that the organization is not known to the Executive Committee, and has been unknown to the Executive since.

S. S. Hardesty was fined $10 by Justice Brandwein yesterday for violating the Sunday law yesterday. Justice Lummis fined Joseph Rice $50 for keeping a saloon open on Sunday, and also for selling to minors. Rice is a saloon-keeper on Clark street, near Lake Street, a few doors from the building in which the Sunday-school explosion occurred.

Ira Hamilton, the Rolandine editor, against whom John Cudahy swore a search warrant for obscenity a few days ago, through the arrest of his attorney and was released on personal bail, has been arrested, Justice's constable, a constable Hoagland, and Lieut. Ingersoll, of the Central Station, and locked up in the South Clark-street Station for the night.

It is not expected that Chicago bondsmen will be in any way affected by the action of their brethren in New York. Bondsmen are now getting $5 for a week of the bonds, and they expect to be repaid enough to make up their losses. The bondsmen in Chicago are of much the same class as those in New York, and their action in refusing to accept bonds will probably be followed here.

Peter Dargel, the police officer charged with assaulting Thomas B. Bennett with intent to kill him, June 21, on the 12th instant, was discharged by Justice Rosenthal. The evidence showed that Bennett was drunk and abusive to Dargel, and struck him in the face with his fist. Dargel, who is a powerful man, struck Bennett with his club, and Bennett fell to the ground. Dargel then struck him several times, and Bennett was arrested. Dargel was discharged.

Some forty or fifty Canada women, members of the Ladies' Branch of the Canada Temperance Union, are at the Sherman House, and will remain over Sunday. They are on a pleasure excursion to Niagara Falls, and will return to Canada on Monday.

Thirteen of the men who passed at the recent civil-service examination for Post-Office service were appointed yesterday afternoon, and will commence work Aug. 1, when others of the number will take their turn. The thirteen are: Thos. Cooney, $1,000; Jas. Cooney, $1,000; Jas. Cooney, $1,000; Jas. Cooney, $1,000; Jas. Cooney, $1,000; Jas. Cooney, $1,000; Jas. Cooney, $1,000; Jas. Cooney, $1,000; Jas. John Ryan, who was employed as a watchman on the Burlington, has contracted to dig a well for the proprietors of a livery stable on Public Square's ground, and was found in the bottom of said well asleep at 11 o'clock yesterday morning. He was aroused and ordered to ascend, but, being intoxicated, fell back into the water, and was drowned. Ryan's condition is considered dangerous, and Judge Ingham's physician has been called to him.

Alexander Arnell, the surviving victim of Jacob Cooper's knife, made an appearance in Clerk Cooper's office yesterday for the purpose of having the case continued, as he was unable to appear in court. The case was continued to October term.

A few months ago William H. Fox, aged about 30, was a trusted agent in the employ of the Anglo-American Packing Company, and during summer and fall bought a large number of hogs for the firm. Most of this fall's purchases were made in Kansas, Missouri, and Illinois, and Fox, who had charge of the business, was frequently absent from the city. He was married, and lived with his wife and child at No. 1,000 Wabash-av. Some time ago Fox left the employ of the company, and went into business for himself, buying hogs on commission. He was successful, and was considered a prosperous young man. Last Saturday he left his home, saying that he was going to Kansas, and would be back in a few days. He has not been heard from since, and it is feared that he has met with foul play.

Yesterday Mrs. Fox received a letter from her husband, dated at Kansas City, Mo., July 17, stating that he had been robbed of $1,000 while on the train, and that he was penniless. He said he was going to Leavenworth, Kan., and would return to Chicago as soon as he could get money. Mrs. Fox, who is a lady of refinement, and who has been accustomed to the comforts of life, is almost distracted with grief and anxiety. She has no means of support, and is dependent upon her husband for her daily bread. She has no relatives in this city, and is entirely alone. She has no idea what has become of her husband, and is unable to account for his strange conduct. She is afraid that he has been murdered for the money he had with him. She has applied to the Police Department to have search made for her husband, and has also employed detectives to find him. She is afraid that he has been murdered for the money he had with him. About the Office.

Chicago, July 21.—[Editor of The Tribune.] What is the distance by rail between Cedar Springs, Mich., and Port Huron?

J. Corrigan Smith.

North Side Pills.

Chicago, July 21.—[Editor of The Tribune.] Is the Tribune not attentive to the duties of reporter now? Is the Tribune without quarter must put forth action along the Lake Shore drive? They are a standing dollar to the county, and a nuisance to the city. The solution of which should prevent their existence.

History of England.

Chicago, July 21.—[Editor of The Tribune.] Will you please inform me where in the full history of England can be found: 1. Secretary Lamont's appointments and authority granted? 2. Is not precedent established that Queen's or ex-queen's children may marry?

[The last works on English history to which reports are found. Secretary Lamont has a limited period, and dates from a very short time. There are others in Europe to-day to the respective dynasties, but the work is not yet complete.]

Non-subscriber from Lack Cooperation.

Chicago, July 21.—[Editor of The Tribune.] The Independent Congressional Committee of the Second district, held a few days before the second day of the Republican Congressional convention, adopted a resolution declaring that any party which seeks of the New York Central or other road would receive the united opposition of the union. In view of the fact that many of the delegates to the Republican convention were members of the union, and that the Republican party, by the action of the majority of them in permitting such a resolution to pass, has placed itself in the position of the opponent of the union, I would like to know if it is the duty of the members of the union to support a party which has declared itself the opponent of the union, or if they are not justified in voting for the candidate of any party which will not declare itself the opponent of the union. A CLERGYMAN'S REASONS.

Why the Rev. G. C. Lorimer Intends to Vote for Mr. Bryan.

The Rev. G. C. Lorimer being requested to serve as President of the Union and Labor club of Tremont Temple, Boston, U. S., made a short speech at a meeting of the club, assigning reasons why a minister should vote and work for the Republican ticket, following is an extract:

"The ministers of this municipality [illegible] to attend a meeting of the Union Temperance league in this city. Though there are professional men present who have come to their determination of the issues in Boston, it has been the work for the business men, shopkeepers, shoe and boot, hosiery and grocery trades, to be present at 8 o'clock this morning for their special conference for the purpose of considering what is to be done for the interests of their respective trades. Is it not time that the ministers of the gospel should have a conference for the purpose of considering what is to be done for the interests of their respective trades?

COMING OUT FOR BLAINE.

The 24th Independence Hall Auction Large Meeting.

Colonel Lee Hall of a Scrapper to Sell Tom Corrigan for a Knock-Out—Ing to Be Sent to Chicago—Ing Hall.

(Please see the heart rules in the fire.)

There was a decided increase in the attendance at yesterday's meeting of the 24th Independence over that of the previous meeting. The gathering was in Chevalier Hall was smaller to the extent that but little standing room left when business was proceeded with, a number of them present were supporters of past political affairs.

[illegible]

Mr. S. S. Rees presided and Mr. Joseph Lawrence acted as Secretary. Expressions of indignant sentiment were delivered but in order.

Mr. Perry Logan, who has a Benjamin Franklin Washington, was introduced as a "veteran Democrat." He said that he had voted for Grover Cleveland as a candidate for Governor because he believed him to be the friend of labor and the champion of supremacy. But the Governor had not guaranteed him sufficient work for very long, for he had taken the first opportunity by vetoing the Freedom-Fare bill—of giving himself the hired and agony of suspension.

"When I read the notice of that veto," said Mr. Logan, "I had down the paper and made a solemn pledge not to vote for Grover Cleveland if he should be a candidate for office again. Then pledge I propose to keep. What does have Cleveland done for the interests of workingmen? He has cut the salary of a workingman, and he has gotten that he should nothing of that kind. He has shown a contempt for the workingmen by vetoing the bill to prevent the issuing of injunctions. He has shown a contempt for the rights of citizens
